FOR IMMEDIATE RELEASE

To: Local Media
From: Western U.P. Health Department
Subject: Boil Water Advisory Lifted
Date: April 29, 2021

Houghton County – Boil Water Advisory Lifted

Houghton County – The boil water advisory has been lifted for all previously affected areas: Atlantic Mine, City of Hancock, portions of Portage Township, and Quincy Hill area of Franklin Township that are supplied with municipal drinking water from Adams Township. Satisfactory bacteriologically safe water sample results have been received following the water main repairs indicating that the water is safe for drinking.

Water customers should flush pipes, faucets, and drinking foundations for at least five minutes unless otherwise directed by your local utility. If you experience any discolored water, continue flushing until clear.

Before serving or using water, Food Service Establishment and Retail Food Establishment operators must follow the instructions in the recovery section of their "Emergency Action Plans for Retail Food Establishments" guide.

If you have questions, contact the Western Upper Peninsula Health Department, at (906) 482-7382.
