

Medical Marijuana Law Update Seminar

In 2016, Governor Snyder signed three new laws that clarify and add to the state's voter-approved Michigan Medical Marijuana Act from 2008. The new laws give local governments the authority to regulate the location and number of medical marijuana provisioning centers, allow marijuana-infused products, and create a "seed to sale" tracking system to ensure that any marijuana being dispensed to patients has been tested for safety. The bills are now PA 281-283 of 2016.

This workshop is an opportunity for local government officials to learn about options in prohibiting or accepting and regulating medical marijuana dispensaries, growing facilities, processing, product testing, and transport facilities.
