* Locations are not routinely monitored. Testing at these locations was in response to the June 17th flood event. Once determined to be safe, they are no longer being monitored during 2018.

** Locations that are being sampled by Keweenaw Bay Indian Community. All other locations are sampled weekly.

Note: Bobcat Lake has not been resampled due to road closure. Lighthouse Overlook is under a precautionary closure due to authorized lagoon discharge. Lake Linden Beach bacteria levels are within limits; however Lake Linden is under a continued precautionary advisory due to chemical contaminants from mining waste.
