

NEWS RELEASE

Upper Great Lakes Family Health Center · 506 Campus Drive, Hancock, MI 49930 · 906.483.1705

April 2021

FOR IMMEDIATE RELEASE

HOUGHTON, MI – Upper Great Lakes Family Health Center (UGL) and Michigan Technological University (MTU) are pleased to announce that the COVID-19 vaccine clinics taking place at Michigan Tech’s Student Development Complex (SDC) have been opened to the public.

The clinic will use the Moderna vaccine and is open to those 18 years of age and older. If you would like to participate, please [schedule an appointment online](#) to ensure you receive the vaccine. While walk-ups are permitted, we cannot guarantee you will receive the vaccine if you haven’t scheduled an appointment.

The clinics are scheduled from 8 a.m. to 5 p.m. Wednesday, 4/21, and Thursday, 4/22, at the Student Development Complex Varsity Gym.

Please note:

- If you already have an appointment, keep that time.
- Do not come to the clinic if you are sick or not feeling well or are in isolation or quarantine.
- The Moderna vaccine will be administered.
- Open to those 18 years of age and older.
- Masks are required.
- No out-of-pocket costs. Please bring your insurance card if you have one.
- Plan for at least 1 hour and dress accordingly.
- Lines will be socially distanced, however, there may be a wait time depending on volume.
- It is recommended that participants schedule an appointment [here](#).

About Upper Great Lakes Family Health Center

Upper Great Lakes Family Health Center is a Federally Qualified Health Center (FQHC) dedicated to providing high quality health care services (medical, dental and behavioral health) to everyone regardless of their ability to pay.

Our team of health care providers and support staff practices the Patient Centered Medical Home (PCMH) model. PCMH is a model of healthcare where the patient is at the center of their health care team. Each patient is empowered to develop an ongoing, personal relationship with their provider, clinical staff and care team. Whatever the healthcare needs – primary or secondary, preventive care, acute care, chronic care, oral health, behavioral health, or end-of-life care – the patient has a medical "home"; a single, trusted provider and care team, through which continuous, comprehensive and integrated care is provided.

Providing exceptional health care services for all people in the Upper Great Lakes region regardless of their ability to pay.
